Reading list

We recommend buying or getting hold of Dawn Watkins and Mandy Burton (eds.), *Research Methods in Law*, Routledge, 2013. We will use 3-4 chapters from this book, which is available at Juridisk Bogformidling (the legal bookstore), Aarhus University, building 1328, room 014, price DKK 337,50 (for students). It is written for PhD fellows and one of the only books doing so. It approaches legal scholarly work from a common law perspective, which is a minor drawback for scholars working in other legal environment, but it is a lot better than nothing.
